Exercise

See for yourself. Get into the Python Shell, import the `random` module, and then generate some random integers with `random.randint(0,2)`.

Keep calling randint to see what you get!

```
>>>1
>>>random.randint(0,2)
>>>2
>>>random.randint(0,2)
>>>2
>>>random.randint(0,2)
>>>1
>>>random.randint(0,2)
>>>0
```

```
Python 3.6.0 Shell

>>> import random
>>> random.randint(0, 2)
```

What will you get?
